Technical Notice

09-001

TO: BOX Participants
FROM: Participant Connectivity Coordinator
SUBJECT: **System Capacity Increase**
DATE: January 07, 2009

This memo is to notify BOX Participants that the BOX will be increasing system capacity by adding additional servers for the FIX and SAIL Front Ends. While the changes do not require any intervention or changes by Participants, the production environment will be available for Participant testing from 11:00 AM until 4:00 PM EST on Saturday, January 10, 2009 and Sunday, January 11, 2009. BOX highly recommends that Participants who connect via SAIL, FIX or ATR, test their connectivity during the test period.

Our Technical Helpdesk will also be available to support customer testing at 1-866-905-3535.

Please contact the Technical Help Desk at 1-866-905-3535 or by e-mail boxsupport@bostonoptions.com if you require assistance or any additional information on this Technical Notice.
